

Tatiana Mitrova, Ph.D. in international economics, Head of the Center for International Energy Markets Studies in Energy Research Institute of the Russian Academy of Sciences. After graduating from the Moscow State University (Economics Department) in 1994 she started her career in energy consulting firms “Eneco” and “Energ21”. In 1998 she joined Energy Research Institute of the Russian Academy of Sciences, leading Russian scientific institution in the field of complex energy problems in terms of analysis and energy development forecasting for Russia, CIS countries and global energy markets. Since 2006 she is the head of the Centre for International Energy Markets Studies in this Institute. In her current position, her primary responsibility is for analysis of global energy markets development and energy export and import policy of Russian Federation. She has twelve years of experience in dealing with Russian, CIS and European energy markets development, including production, transportation, demand, energy policy, pricing, taxation, and markets restructuring. She is a member of Regional Study Group on Global Energy Scenarios in World Energy Council, International Gas Union Programme Committee “B” (“Regulation”) and also participates in working group for foreign relations in Russian Gas Society. In 2006 she was an expert in Energy Security Group (Steering Committee for G8 Presidency of the Russian Federation).
